

New Parking Process

The final phase of the automated parking program on the Scripps La Jolla campus is now in effect. This corresponds with the completion of the road realignment construction and the new street layout.

All of the automated entry and exit gates and the “Pay-on-Foot” machines will become the primary means for parking payment. All patients and visitors are encouraged to use the payment stations to avoid congestion at the gates. The exit gates will be in use at all times with payment or validation required to exit for all patients and visitors. The old parking booths are closed.

All Scripps Health ID badges have been coded to work in all employee parking areas on the La Jolla campus. Here are the specific changes:

- **The underground parking structure (A) is for patients and visitors only. Scripps Health badges will not work in the underground structure.**
- **Parking structures B (Ximed) & C are open to everyone. Scripps Health badges will allow you through these gates at all times.**
- **Scripps Health badges will not work in any of the surface parking lots.**

****All students attending clinical at La Jolla will need a Scripps Health badge.**

Once you are cleared to begin your rotation a Corporate ID will be requested for you. After your Corp ID has been issued, your instructor and/or preceptor will receive a Badge Request Form that you will need to take to the Badging Office to obtain a badge. On your last day of your rotation you must return your badge to your instructor or preceptor.

The Badging Office is located right next to Security on the Lower Level of La Jolla (Browning Building). Badging Office Hours are Mon - Fri 7AM - Noon.

*If you do not receive your badge on your first day, you may go to the badging office with your school ID to request daily parking passes until your badge is issued.
