

Scripps Health Social Media Agreement

Privacy at Scripps is very important and is taken very seriously. During your time at any Scripps facility, you **may not** take any photos in any department or during any procedure that you are part of. In addition, you **may not** post anything about your time at Scripps on any social media sites.

“Social Media sites” is defined but not limited to Facebook, My Space, Twitter, YouTube, Yelp, community forums, instant messaging, wikis, blogs, comments on news articles, and online photo sharing.

If this agreement is violated and any photos are taken and/or posts related to Scripps are found on social media, you will be removed from your student placement experience at Scripps and will not be allowed to return for any future student placement opportunities.

I understand the social media policy and will not take photos or post anything on social media about anything I see or experience during my time at Scripps.
