1. Open Safari and enter <u>https://vpn.scripps.org/mac</u> in the Address line as below.

2. Enter your Username and Password and click the *Sign In* button.

3. Once logged in click the Start button next to Java Secure Application Manager.

4. Click the *Trust* button if you receive the warning below.

5. Enter your Mac username and password and click the *OK* button.

	java requires that you type your password.			
	Name:	username	-	
	Password:	•••••	-	
▶ Details			\frown	
?			Cancel OK	

6. The window below will open in the bottom-right portion of your screen. **DO NOT CLOSE** this window. It must remain open while you are logged in to the SSL VPN.

7. Start Finder. Click on Applications under Places. Double-click Remote Desktop Connection. For quicker access to this application, drag Remote Desktop Connection to your Dock. If you do not have this application installed, see **Installing Remote Desktop**, beginning on page 5, before continuing.
